2020 CENTRAL LIFE SCIENCES ALL CLEAR REBATE PROGRAM

CONTINUOUS INNOVATION TO MEET CUSTOMER NEEDS

At Central Life Sciences, we have always sought to provide environmentally compatible control. In 1968, the founders of Central Life Sciences discovered the compound (S)-methoprene, the original insect growth regulator. It was developed to halt mosquito growth in the larval stage. This was a different control method, borne from stopping mosquitoes in a more environmentally responsible way. Driven to satisfy our customers, we are constantly producing new innovations. The All Clear Rebate is part of the effort to provide environmentally conscious mosquito control that meets ever changing needs.

PROTECT YOUR COMMUNITY

PROVEN ALTOSID® LARVICIDES

- Industry standard for over 50 years
- Consistent, reliable performance
- Multiple formulations
- Target specific
- High quality (S)-methoprene

DURABLE FOURSTAR® LARVICIDES

- Extended residual microbial formulations
- *Bsph/Bti* biological environmental profile
- High-bulk density; reduced target drift
- 45, 90 and 180-day residual briquets
- Dual-action flash and controlled release technology

ADVANCED ZENIVEX® ADULTICIDES

- EPA reduced-risk classification
- Low toxicity profile
- Quick, permanent knockdown
- Approved for use over cropland

INNOVATIVE DUPLEX™-G LARVICIDE

- Dual biorational and biological control
- Active Booster Release Technology
- Extended residual: 28 days of control
